SEED GROWERS (*Wholesale Only*)

CALIFORNIA'S CHOICEST FLOWER SEEDS—SINCE 1890

El Monte, Los Angeles County, California, U. S. A.

CALENDULA DOUBLE

	Per oz.	Per 1/4 lb.	Per lb.
White	1.00		3.00
White, black eye.....	1.00		3.00

Although these are not a pure white, they come the nearest to it of any that have been offered to date. The white flowers delicately tinged with cream are a welcome addition to the Calendula color range.

Golden Radio	1.50		5.00
--------------------	------	--	------

This is a golden yellow companion flower to the popular Orange Radio, and is proving a very popular item. We recommend early orders, as the supply of seed is limited.

Campfire or Sensation.....	1.50		5.00
----------------------------	------	--	------

Still the best orange Calendula on the market.

CLARKIA

Elegans Double

Firebraud	1.60		3.50
-----------------	------	--	------

We feel that special attention should be called to this new Clarkia. A deep orange scarlet in color, it is by far the best being offered.

LARKSPUR

Giant Imperial (Improved Upright or Mammoth Column)

The Giant Imperial strain of Larkspur, as seen in the photo on back page, has been so far improved over the old stock flowered strain that comparison is scarcely possible. The upright habit, and close placed basal branched laterals are a great saver of space in both greenhouse and garden row. We offer the following varieties:

Miss California, (Bodger) deep pink on salmon...	2.50		8.00
Carmine King, (Bodger) deep carmine rose.....	2.50		8.00
Exquisite Pink Improved.....	1.50		5.00

Peach Blossom	3.00		10.00
Gloria	3.00		10.00

MARIGOLD GUINEA GOLD

(See illustration front page)

A new and distinct type of Marigold, excellent for both cut flower and garden use. The flowers are a brilliant orange, double, ruffled, with loose placed petals. The characteristic Marigold odor is much less noticeable in this variety. Due to a heavy crop, we are pleased to offer seed, when ready, at prices lower than our contract list.....

DELPHINIUM BODGER'S—Hollyhock Strain

The heavy center spike, and long basal branched laterals make this strain the show Delphinium of them all.

Bodger's New Double Sweet-Scented Nasturtium . . . Golden Gleam

The ever increasing popularity of this well-known novelty, which was introduced to the trade last year, leads us to believe that the demand for this season will surpass last years' record-breaking sales. We feel that this popularity is due in large part to the many ways in which the plant can be used. As a **bedding plant** it is unsurpassed. The neatly formed, vigorous growing plants covered with a mass of the large golden yellow flowers, produce a blaze of color in the garden. The owner of one of the famous gardens of California points with pride to the show spot of his estate—a bed of *Nasturtium Golden Gleam*, 35 feet long and 5 feet across—to all appearances a solid blanket of gold spread over the ground. The flowers, borne on erect stiff 6-inch stems, coupled with the great floriferousness of the plant, leave the foliage practically hidden.

When fully developed the plant sends out short runners, also bearing numerous flowers, which add to the usefulness of the plant for the **window box trade**. In the greenhouse, plants may also be **forced**, as Sweet Peas are, for early **cut flower** sales. The long stems lend themselves admirably to cut flower use, and the sweet scented flowers impart a delightful fragrance to the room in which they are used.

The neat compact habit and early appearance of flowers make *Golden Gleam* an excellent **pot plant** subject. The runners can be pinched back as soon as they appear, and a rounded mass of golden flowers will be the result.

Truly an all around plant. Seed now available in limited quantities. Orders will be filled as soon as seed is ready. We urge the placing of orders **now**, to avoid disappointment.
